3-D Bail Bonds of CT: To our local communities and customers regarding the novel COVID-19 outbreak

As you know the media and Connecticut government officials are constantly providing updates along with the CDC guidelines to combat and contain the spread of the new coronavirus. You can learn more about the virus and symptoms on the [CDC website](#).

Here at [3-D Bail Bonds](#) we appreciate your business and understand your needs during good and bad times. We too are making efforts to protect you and our employees.

This is what we are doing:

- Agents are encouraged to practice good hygiene habits, use caution and limit contact in the event that someone is or looks sick.
- All 3-D Bail Bonds offices have hand sanitizer available and are under new cleaning procedures. We are open to the public and are processing bail bonds 24 hours a day at all Connecticut prisons and courts. There has been no change from the Department of Corrections so far.

There is no higher priority today than the safety of our customers and staff. If you have any concerns about leaving your house to sign for someone arrested and be exposed because of your higher-risk condition, call [860-247-2245](tel:860-247-2245), we offer online paperwork, online payments and more options to help you.
